

THE
HEALING
VILLAGE SPA

Four Seasons' two spas in Bali explore the intertwined Balinese philosophies of **Sekala** *(the seen/physical world) and* **Niskala** *(the unseen/energetic world).*

Treatments that flow from Sekala to Niskala (seen to unseen) target physical issues to ease exploration of the inner self. Flowing from Niskala to Sekala evokes a spiritual connection strong enough to affect physical change.

This symbiotic dance illustrates the all-encompassing Balinese belief of wellness being connected across body and soul, the outer and inner, the physical and spiritual worlds.

THE
HEALING
VILLAGE SPA

It takes a village to raise a child...
and a spa village to raise vibration.

Welcome to The Healing Village Spa: a wellness portal where ancient wisdom illuminates modern ways, and physical treatments inspire metaphysical transformations.

Submit to Bali's magic and our team of healers' expertise via rituals that honour timeless traditions and emerging awareness.

Born in light, longevity and love, therapies draw on the power of light and sound, crystals and colour, plants and pure water to align the body's energy centres.

Performed with thought and compassion, our Jimbaran Traditions bestow peace and healing.

SUARA JIMBARAN* 120 mins

An immersive sound bath ritual with glass stone massage

Meaning 'sounds of Jimbaran', this transformative treatment begins with a 'sound bath' featuring the deep vibrations of Balinese gongs – a truly mesmerising experience in our seafront bale.

Energised and realigned, a rejuvenating glass stone massage follows with frankincense and geranium butter. To end, a hydrating rose and sandalwood face treatment calms the senses and soothes the soul.

TAMBA ANGET 120 mins

Warm herbal bundles for heavenly healing

Inspired by the bundles made by local villagers to relieve aches, this 'warm remedy' features compresses of chamomile, cardamom and cloves; a warm herbal oil massage; and a lemongrass and frangipani bath.

JIMBARAN WATERS

Water is deeply rooted in Balinese tradition, from cultural ceremonies to religious rituals.

Our Jimbaran Waters rituals unite pure intent with flowing techniques to cleanse and refresh body and mind.

BLESSINGS OF BALI* 150 mins

An oceanside ritual inspired by a traditional journey of self-renewal

Submit to ancient therapies and release stagnant energies with traditional healing, yoga poses, breathing techniques, massage and the sensory vibrations of a Balinese gong 'sound bath'.

As the resort's Balinese-Hindu priest performs a final blessing and purification ritual using holy water and sacred flowers, feel your entire being flooded with an uplifted sense of peace.

OCEAN EMBRACE* 120 mins

An enchanting experience that recalls the soothing qualities of the sea

Surrender to the Bay's embrace – and enhance positive thought – with a pandanus-infused coconut hair oil head massage, softening blue sea salt body scrub and soothing warm seashell body massage.

LYMPHATIC FLOW 135 mins

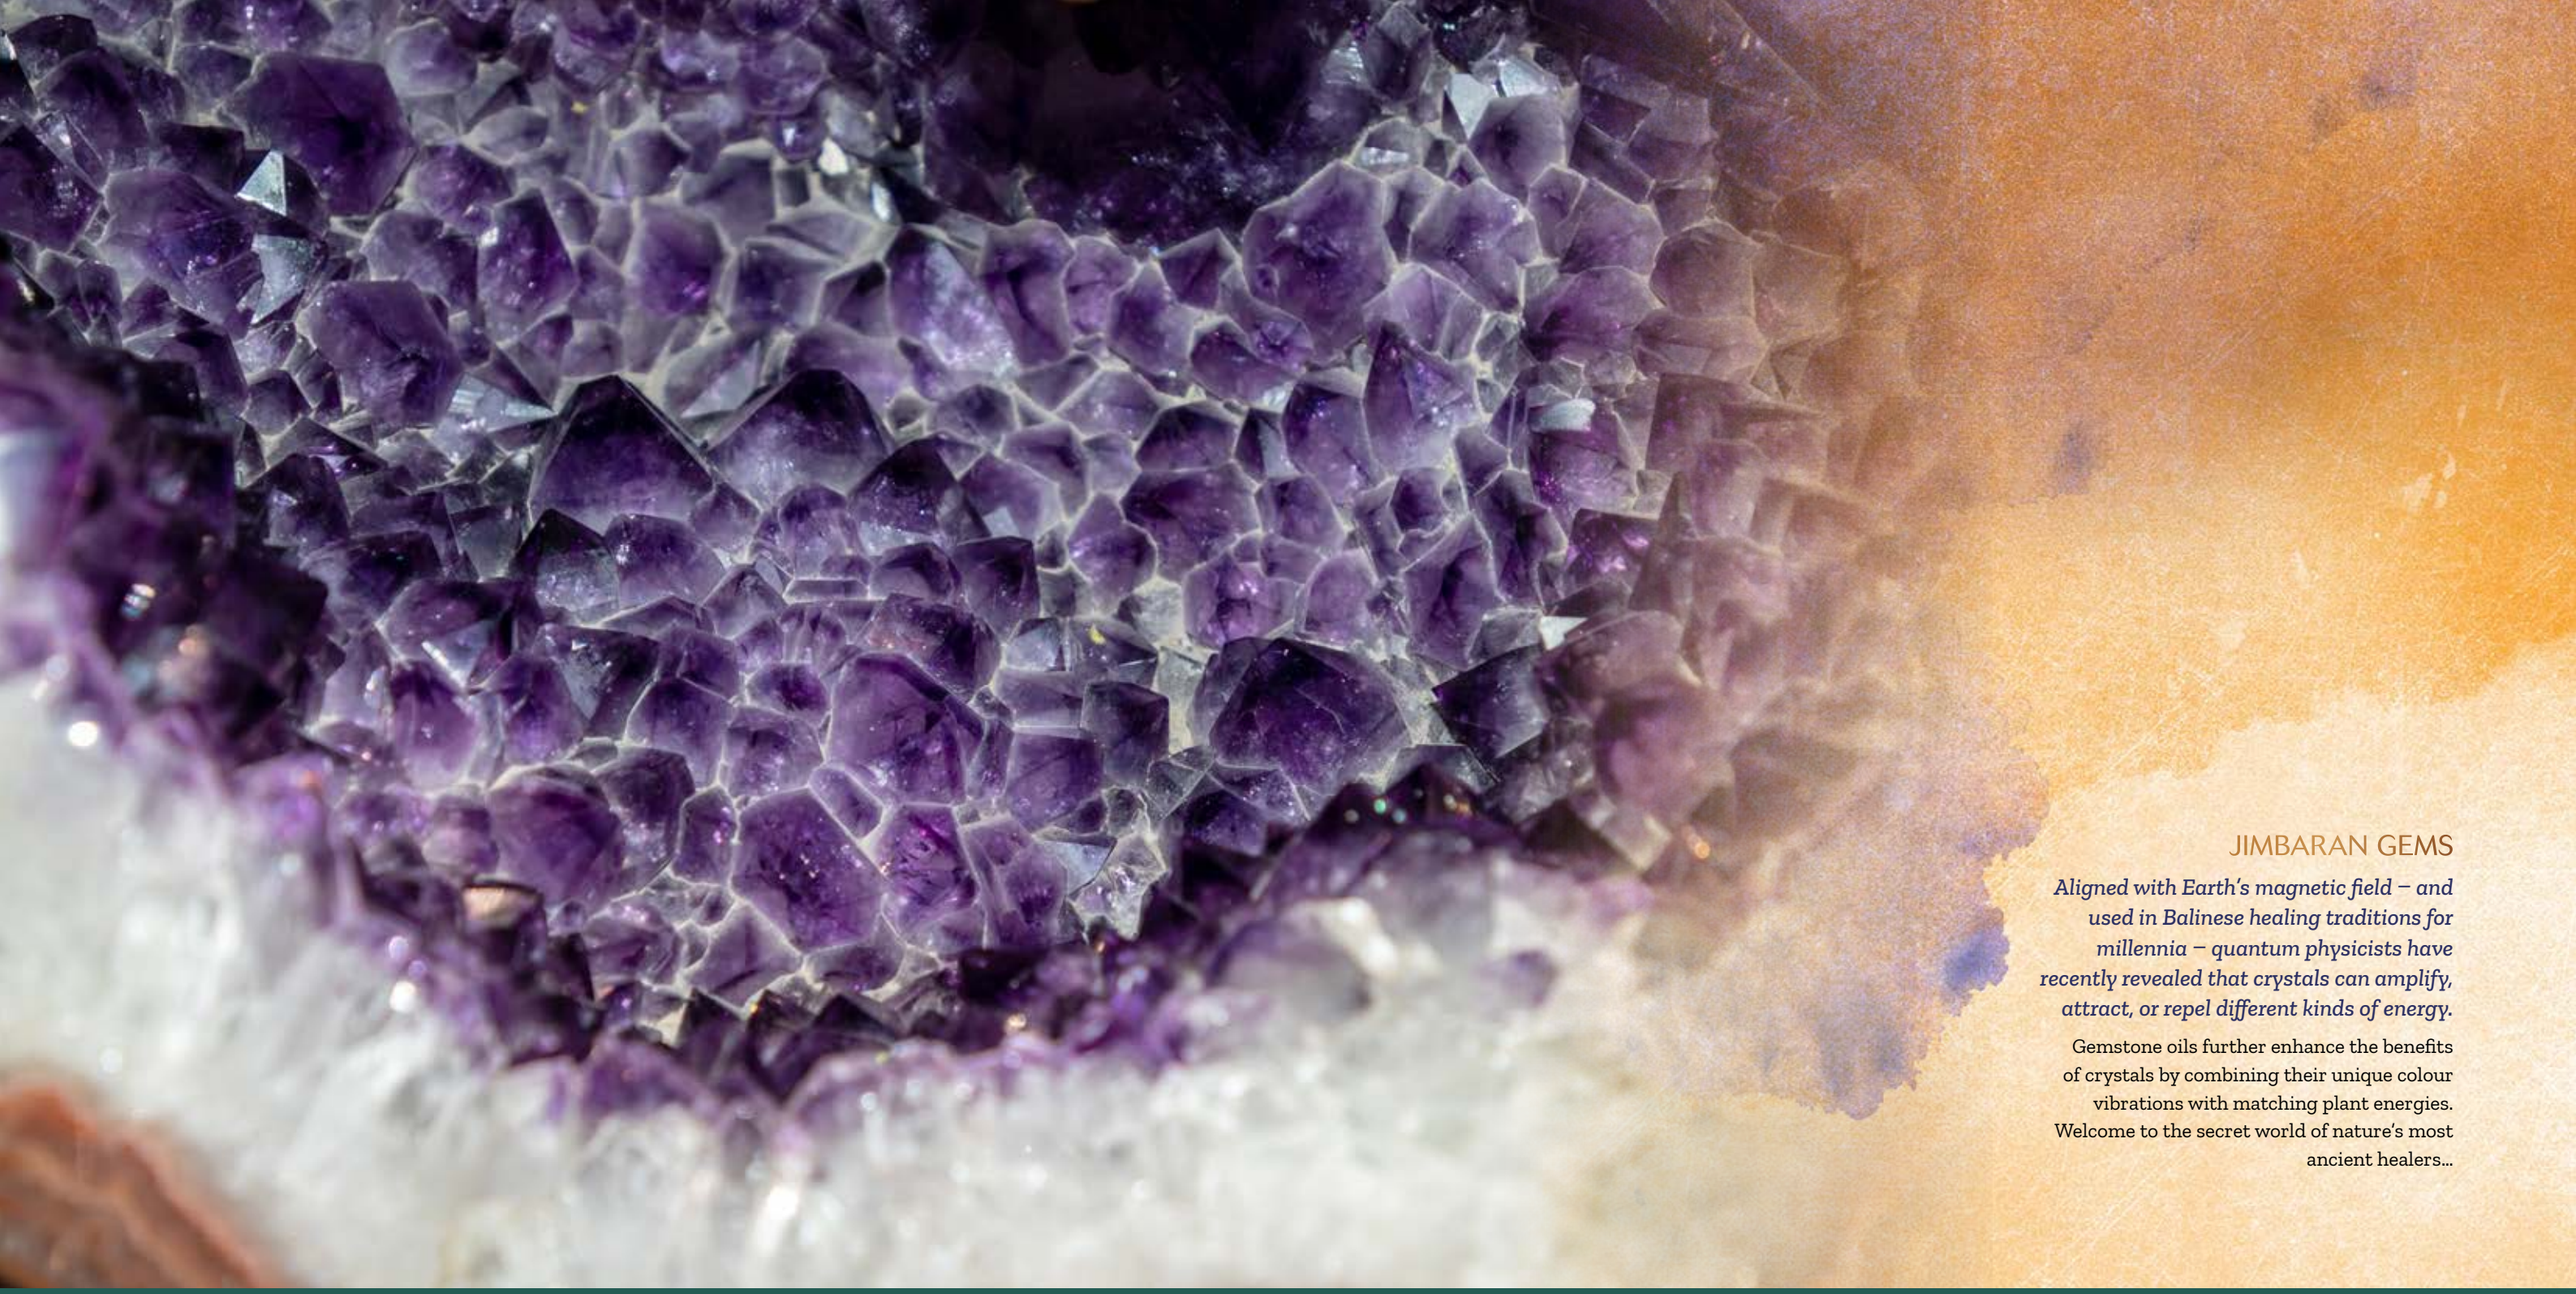

A cleansing cascade to stimulate circulation

Rhythmic rejuvenation starts with dry skin brushing, a citrus and spice oil wrap, lymph-draining massage (with kidney-activating juniper) and mini facial, before a soul-surrendering Vichy shower.

BARU DETOX 135 mins

The healing elements of water, colour, sound, minerals and massage combine for a powerful, harmonious experience

A citrus-spiced oil and clay wrap containing 15 natural powders boosts circulation and aids toxin release. Then let the vibrations of chromotherapy, hydrotherapy and sound literally wash over you with an eco-vichy shower. A deep tissue massage and mini-facial complete the deep sense of relaxation and sensory immersion.

JIMBARAN GEMS

Aligned with Earth's magnetic field – and used in Balinese healing traditions for millennia – quantum physicists have recently revealed that crystals can amplify, attract, or repel different kinds of energy.

Gemstone oils further enhance the benefits of crystals by combining their unique colour vibrations with matching plant energies. Welcome to the secret world of nature's most ancient healers...

GEMSTONE JOY 120 mins

A head-to-toe flow of ecstatic healing

Flowing with purpose and intent, long massage strokes combine with gemstone oils and complementary massage stones to elevate the body's energies.

A crystal wand 12-point marma massage releases facial tension before gemstone oils, drizzled up and down the spine, are massaged into luxurious cohesion to balance vibrations throughout the body.

Magical and awe-inspiring, this is bliss on an elemental scale.

AROMA CHAKRA BALANCE MASSAGE 90 mins

A soul-deep quest for harmony, truth and integrity

This sensitive yet powerful balancing experience unites the wisdom of aroma oils, crystals, sound, and breath to bring harmony to Sekala and Niskala: the seen and unseen forces of nature within all.

LAPIS LAZULI MUSCLE SOOTHER 120 mins

An anti-inflammatory wrap and muscle-easing massage

Following a steam, ease activity-induced stiffness with an arnica and blue tansy Recovery Oil wrap. Relax with a foot treatment before cool lapis lazuli massage stones draw heat – and aches – from sore muscles.

Purifying scrub, massage and facial for rejuvenated vitality

This vivifying face and body ritual includes a rosemary and sage scrub, Lapis Lazuli Recovery Oil massage, bespoke facial, hand and foot treatment and energy therapy to rejuvenate skin and restore vitality.

THE ILLUME ROOM

Be guided back to wellness in The Illume Room.

Our cutting-edge Illume Room draws on the latest technologies and the science of the body's 50 trillion cells to offer a total immersion into light, sound and colour frequencies for balance and bliss.

Bali's first 'Surround Sound Spa Suite', The Illume Room is sealed from outside sources of light to maximise the powerful colour therapy healing. A heated quartz-sand bed made of crushed crystals combines with surround sound technology and seven alchemy crystal singing bowls to add to the high vibrations.

Working on the body's electromagnetic field, our powerful treatments stimulate inner healing responses while inviting every cell to thrive for true holistic harmony.

Quantum physics shows that each colour resonates with the body in a unique way – a synchronicity reflected in our Gemstone Oils: Garnet to calm and ground; Carnelian for creativity and passion; Rose Quartz for love and connection; Lapis to cool and refresh; Amethyst to purify and protect.

Enhance any massage by choosing The Illume Room – price on request.
